

Adaobi Ezenwa

Frontend Engineer | <https://adaobi.munkai.art>

I am dedicated to building intuitive and efficient digital products, leveraging a blend of frontend development expertise and user-centered design.

Experience

Izesan

Lead Frontend Engineer (Remote) | Jun 2024 – Present

- Spearheaded high-performance, SEO-optimized web apps using Next.js.
- Managed frontend codebase, collaborating closely with PHP Laravel backend team.
- Designed Study Hall and game features, driving user engagement
- Integrated PostHog for analytics and optimized user experience with Chakra UI and Tailwind CSS

Munkai

Founder (Remote) | Oct 2024 – Present

- Led cross-functional teams to deliver the Munkai WebApp.
- Implemented Agile methodology, improving collaboration and delivery.
- Managed project scope, budgets, and resources effectively.

BitNorm

Frontend Engineer (Remote) | Oct 2023 – Sept 2024

- Developed SEO-friendly applications using Next.js and Chakra UI.
- Enhanced usability and branding with Tailwind CSS, GraphQL, and Apollo Client.
- Optimized network requests with client-side caching and prefetching.

Lapo

Frontend Engineer (onSite) | Jan 2021 – May 2021

- Developed cross-platform mobile apps using Flutter.
- Improved front-end performance with lazy loading and caching strategies.
- Integrated RESTful APIs into front-end applications, enabling seamless data retrieval and manipulation.
- Developed responsive and engaging user interfaces using React.js, resulting in improved user interaction and satisfaction.
